

Structure de l'ADN

Double brins

Désoxyribose

4 bases:

Adénine

Thymine

Guanine

Cytosine

Structure de l'ARN

Simple brin

ribose

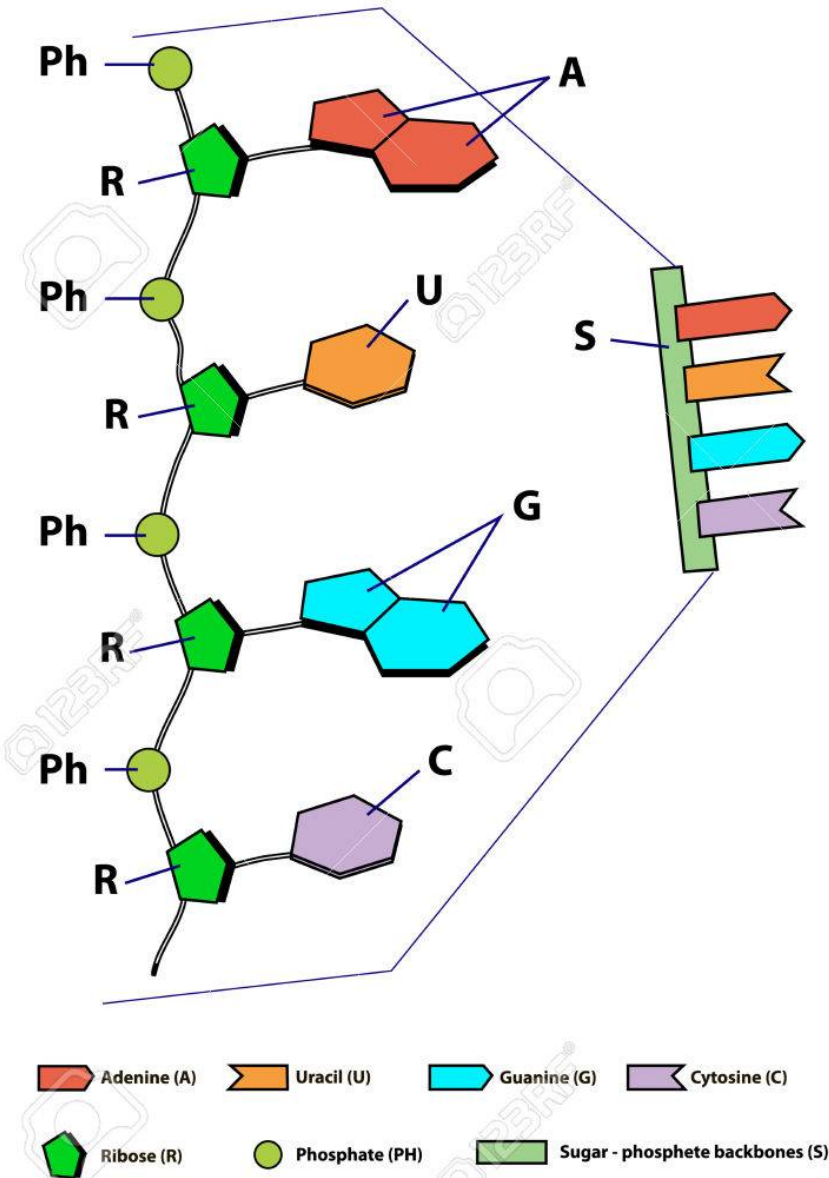

4 bases:

Adénine

Uracile

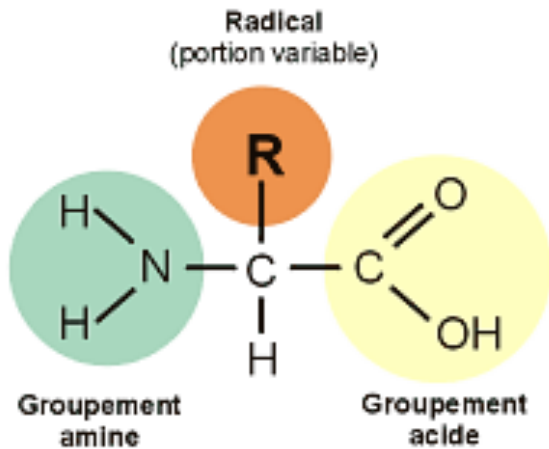

Guanine

Cytosine

Les protéines

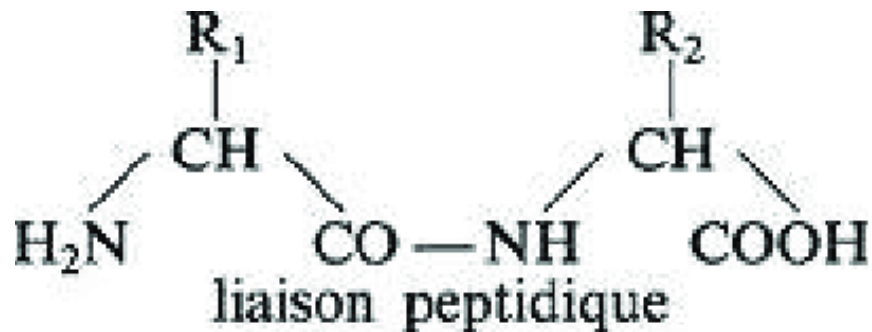

Acide aminé

Radical:

H, glycine; CH₃, valine

Liaison entre 2 acides aminés

Structure primaire

Séquence d'acides aminés
